

BOOST

Give yourself that extra boost!

Clean, Herbal, Power*

Boost is a dietary supplement in tablet form that is designed to give you a quick invigorating effect whilst due to that beta-glucan is contained in Boost, ingested in the proper quantities it will provide satiety (a feeling of fullness in the stomach). In addition, B:HIP Boost contributes to a normal energizing metabolism as well as contributing to the normal functioning of the immune system. Furthermore, the vitamin content in Boost helps to protect against oxidative damage to body's cells. There are also advantages to taking Boost between meals.
