**What led you to start your own business?** "We needed **extra money**, wanted **freedom** and an **entrepreneurship**."

**Why b:hip?** "We came from another Direct Selling company where we had worked with both **Jan Sarfelt** and **Jan Madsen**. We heard they were starting a new company together and we knew it would be **successful** so we came on board!"

**How has your life changed so far?** "We are working our business around our 2 kids. We see all the time - parents who are **stressed out**, trying to get the working life and family life **balance**. We are so happy that we don't have that life, we don't have an alarm in the morning – we have a **relaxed start** to the day, get the kids off to daycare and in school and then go home and work from our **home office**."
